

CONGRESS WILL NOT
MAKE MUCH NOISEPREVAILING OPINION OF THE
SHORT SESSION.

No Heavy Work Is to Be Attempted—Appropriation Bills and a Few Other Measures Are Expected to Occupy the Time of the National Legislature.

WASHINGTON, Nov. 27.—There is hardly the usual interest in the approaching meeting of congress that is generally manifested about the capitol. Few senators and representatives have arrived, though in the last days of last week a business air prevailed somewhat the house end of the capitol, as several members of the committee on appropriations responded to Chairman Sayers' request for committee meetings to consider certain of the appropriation bills. Those members of the committee living in the states comparatively near Washington remained in the city only long enough to transact the business for which they were called together and then returned to their homes.

There are probably more than a dozen senators and forty members of the house in Washington to-day. Consequent on this meager attendance of congressmen is the difficulty of presenting any definite or tangible forecast of proceedings. Nothing like a discussion of politics by the leaders of either political party has been possible and any prediction entered upon is simply the summary of private opinions of the probable course of events as uttered by the leaders now in Washington. Among the opinions which one hears most frequently on the house side and especially among southern democrats is that there will be a revival of the effort to repeal the 10 per cent state bank tax law and it is already stated that strong pressure will be brought to bear in that cause. There is a general impression that the silver question will also cut a figure of sort in the short session, but as few of the prominent democratic silver leaders have arrived it is impossible to say what may be undertaken. The sentiment among many of the most conservative of the silver men is evidently against taking up the question at all, because of the futility of such a course in view of President Cleveland's opposition to free coinage. All expect straggling references to the question and some believe it will be made a leading issue of the session. It is taken for granted that the administration will propose a financial scheme on the lines of the Baltimore plan, and it was suggested to-day by a leading democratic senator that if an effort should be made to put a bill through carrying this plan into effect it would be amended by a free coinage rider and allowed to pass. There is plainly a division of sentiment among democratic senators and representatives regarding the practicability of the Baltimore plan or any other plan on similar lines, and it is already evident that the subject will if introduced lead to a wide range of debate. The propriety of the recent bond issue will surely prove a prolific source of speech making. To sum up the indications for the present gathered from the few members in the city are that the session will be one of more or less straggling effort at financial legislation; that the tariff law will be allowed to stand as it is; that the democratic majority will devote itself in the main to getting the appropriation bills through; that the several bills of a general nature but non-political in character, such as the Pacific railroads, the Nicaragua canal, the personnel of the navy and the pooling bill, will receive more or less attention, but that upon the whole the record of the session will not be one of many or important deeds.

MORE ABOUT THE CZAR'S WEDDING

Elaborate Ceremony Performed—Thousands View the Procession.

ST. PETERSBURG, Nov. 27.—The wedding of Nicholas II., czar of Russia, to Princess Alix of Hesse-Darmstadt took place here yesterday. Before 7 o'clock large crowds of people were assembling on the Newsky prospect in order to secure places along the route of the royal wedding procession. From the Anitchkoff palace to the winter palace the whole avenue was lined with troops. The morning broke dull and cold but dry. Before long the whole front of the route was black with people. There was not an inch of space to spare along the Grand Moskajka prospect and on the square in front of the winter palace.

The correspondent of the Associated press secured a position midway between the two palaces from which he was able to obtain a good view of the process-

CZAR NICHOLAS II.

ion. From this point could be seen thousands of faces, eager to greet the czar and his bride. The large majority of the stores were closed and in the windows were prominently displayed colored portraits of the czar and Princess Alix. At 11:15 o'clock a. m. in the distance was suddenly heard the grand swelling strains of the national anthem and all along the route the multitudes uncovered in anticipation of the approach of the bridal party. Soon afterward an open state carriage drawn by four white horses appeared. In this vehicle were the czar and his brother, Grand Duke Michael. They wore the uniform of hussars of the guard and were greeted with a vociferous burst of cheering, which was renewed again and again. The czar's equipage was proceeded and also followed by detachments of chevaliers des gardes and hussars and lancers of the guard, all in brilliant gala uniforms. Then came a superb landau, also drawn by four white horses, in which were Princess Alix and the czarina. They received if possible even a more hearty popular greeting than the czar himself. Handkerchiefs and hats were waved in the most intense enthusiasm prevailed. After the carriage of the princess and the czarina followed a long train of carriages with the royal guests, including the prince and princess of Wales, the Princess Irene of Prussia, the Grand Duchesses Sergius and other prominent members of the imperial family, as well as all the wedding guests. Military bands were stationed at various points along the route between the two palaces and they each struck up the national anthem as the cortege appeared. The national hymn was thus sounded in the ears of the imperial party along the entire route. The wedding procession entered the winter palace at 1:15 o'clock p. m., where as soon as possible afterward were assembled all those who had been invited to be present at the wedding. A short time later the guns of the fortress boomed forth the intelligence that the ceremony had taken place and that Russia has a new czarina. According to current reports the czar has caused consternation among the officers of his household by leaving the palace unattended and walking through the streets in a military mantle or walking arm in arm with the first officer who recognizes him. Saturday the czar went for a walk with Princess Alix, entered a glove store in front of the Anitchkoff palace and made several purchases. On leaving his majesty was recognized by the people and loudly cheered.

BLOODY RIOT IN RIO.

Several Persons Either Killed or Wounded Yesterday.

RIO DE JANEIRO, Brazil, Nov. 27.—Another riot occurred here yesterday. Several persons were killed or wounded. The feeling against Italians and Portuguese is intensely bitter. There has been great excitement since it became known that the rebels have decided to reject the government's offers of peace. MILWAUKEE, Wis., Nov. 27.—Maximilian Herzog, M. D., has got Milwaukee all stirred up. Dr. Herzog is a young biologist from Chicago. He declares flatly that a large percentage of the vaccine points used in this town are spurious, that they simply contain nothing but some local skin irritant like croton oil, and, further, that the men who make this alleged vaccine lymph are scoundrels and murderers. An investigation of the charges has been ordered by the city council, and the foundations for a most sensational lawsuit have been laid.

Seeley Will Surrender.

NEW YORK, Nov. 27.—The most sensational feature of the National Shoe and Leather bank robbery is the fact that Samuel C. Seeley, the bookkeeper, will be in the custody of the police within the next forty-eight hours, unless he should die meantime; that he has decided to surrender himself to the authorities and to make a clean breast of his share in the robbery. Yale-Harvard Echoes.

BOSTON, Mass., Nov. 27.—The alleged brutality in the Harvard-Yale game will probably be made the subject of an official investigation on the part of the Harvard board of overseers. The report circulated here that the Yale faculty intends to forbid the team playing Princeton on account of Saturday's slugging is denied. A number of the faculty express disgust at the game, saying they lost all interest in it when the slugging began. The college verdict is that the revised rules are a failure.

BOND AWARD IS MADE.

John M. Stewart's Syndicate Secures the Entire \$50,000,000.

WASHINGTON, Nov. 27.—The question of the bond issue was settled yesterday to the eminent satisfaction of the administration. As hinted the entire \$50,000,000 is to go to the syndicate organized by John A. Stewart of the United States Trust company of New York at its bid of 117.077. It is the expectation of the treasury officials that the deposits of gold for the payment of the bonds will be made promptly, and as the understanding is that none of the gold is to be taken from the treasury an early restoration of the gold reserve to above the \$100,000,000 mark will be the result. The bonds, including premium, will realize to the government about \$58,500,000. The gold balance, which is now in round numbers, \$37,500,000, will, if the expectations of the officials regarding the deposits of gold are borne out, be increased to about \$116,000,000. Before yesterday, however, there had been \$4,550,000 in gold drawn from the subtreasury at New York, presumably to be used in the payment of the bonds. Assistant Secretary Curtis heard unofficially over the long distance telephone from New York during the afternoon that \$8,000,000 in gold had been deposited in the subtreasury there for bond payments. The bonds are deliverable as soon as the gold is deposited, and as the bureau of engraving and printing has been busy at work preparing for the issue, they will, it is expected, soon be ready for distribution. The denominations of bonds which the syndicate will take are as follows: Coupons—\$50, \$25,000; \$100, \$25,000; \$1,000, \$34,950,000. Registered—\$10,000, \$15,000,000.

Court's Order Against the Maximum Rate Law Causes Surprise.

OMAHA, Neb., Nov. 27.—The decree perpetually restraining the Nebraska railroads from lowering their rates in conformity with the schedules fixed by the legislature in the maximum rate law has been filed with the clerk of the United States circuit court. It was the greatest surprise to all interested, being more sweeping than generally supposed. The decree, after enjoining the Union Pacific railroad from adopting the rates named in the law, continues: "And that the said board of transportation of said state and the members and secretaries of said board be in like manner perpetually enjoined and restrained from entertaining, hearing or determining any complaint to it made against said railroad company, or an account of any act or thing by it, its officers, agents, servants or employees, done, suffered or omitted, which may be forbidden or commanded by said alleged act."

ITS WORK IS BEGUN.

Trans-Mississippi Congress in Session at St. Louis.

ST. LOUIS, Mo., Nov. 27.—The first session of the Trans-Mississippi congress was held yesterday with 400 or more present, including Gov. Stone of Missouri, Congressman W. J. Bryan, George L. Cannon from Utah, F. J. Cannon of the same territory, Gov. Waite and A. C. Fisk of Colorado, W. L. Merry of California, F. H. Newell of the United States Geological survey, ex-Gov. L. B. Prince of New Mexico, Senator W. V. Allen of Nebraska and many others.

The formal welcome of the delegates to the city then took place.

The congress was called to order at 3 o'clock. On motion of Delegate Hunt of Iowa the river improvement commission was formally invited to attend the convention and enlighten it upon the progress of the work of improvement.

The introduction of resolutions, to be referred without debate to the committee on resolutions when that committee shall be appointed, was then begun, as follows:

Favoring governmental construction of a deep water harbor for southern California at San Pedro.

Favoring the restoration by the independent action of the United States of silver to its status prior to the enactment of the law of 1873.

Favoring free gold and silver coinage at the ratio of 16 to 1; providing for the use of the coin certificates, and enabling and directing the retirement of national bank notes as fast as bonds supporting them can be paid and taken up by the coinage of gold and silver.

At this juncture the convention ordered that the committee on resolutions consist of two members from each state and territory represented, to be named by the state delegations at the opening of this morning's session. The introduction of resolutions was then resumed:

Favoring the use of silver coinage to the fullest extent possible.

Favoring the renewal by proper legislative enactment of the reciprocity treaties recently abrogated and the authorization of new treaties.

A memorial to congress favoring the construction of the Nicaragua canal under the control and supervision of the United States government.

Demanding the defeat of the free lead bill now before the United States senate.

Favoring the payment of a bounty upon exported agricultural products as a just return for the aid afforded manufacturers by protective tariffs.

Favoring appropriations by the federal government for the completion of the Hennepin canal.

Favoring a tariff commission with plenary powers, thereby removing that matter from the influence of the mutations of parties.

Memorial covering all the subjects to come before the congress and suggesting curative processes for all the ills of the financial system as relating to silver at such ratio as may be susceptible of being definitely maintained, also indorsing the efforts of the government to secure the more extended use of silver by other nations.

Other resolutions urged the improvement of the commercial facilities of Alaska, and favored the refusal by this congress to adopt any recommendation as to silver or the tariff and urging the opening of the Indian territory in order to put an end to out-lawry. Delegate Rush of Idaho introduced a short resolution indorsing the free coinage of silver at a ratio of 16 to 1.

Many interesting addresses were made at the afternoon and evening sessions, the two most important being one by Elwood Mead, state engineer of Wyoming, on "Irrigation," discussing more especially the lack of concert of action between the authorities in the control of the water and those in control of the land.

"Irrigation a Living National Issue" was the subject of a paper by Editor W. E. Smythe of the Irrigation Age. He was most enthusiastic in his advocacy of the matter as a national and not a local issue. At the conclusion of Mr. Smythe's address the congress adjourned to 10 o'clock this morning.

WIXOM PAID KEMP AND ENDED A SUIT

DISPUTE ABOUT AN ARCHITECT'S BILL FOR PLANS.

First Mr. Wixom Wanted a House Regardless of Expense But Later Had It Cut Down As Far as Possible and Finally Quit the Whole Thing and Began Over Again.

Elijah Wixom drew a check for \$150 this morning, and thereby hangs a tale.

Mr. Wixom is the owner of one of the finest houses in the city, which is located on Milton avenue. F. H. Kemp, the well known architect, is the designer of the house. When Mr. Wixom decided to build, he sent an agent to Mr. Kemp, it is said, who stated that Mr. Wixom wanted a nice house, and the cost of it was a secondary consideration. Upon this theory Mr. Kemp went to work. He drew plans and specifications for a residence worth about \$11,000, and was to get two and a half per cent of the cost for his labor and the superintending of the job. When Mr. Wixom saw the estimate of the cost he threw up both hands and said it "was too much," and must be cut down. Mr. Kemp then cut it down to about \$9000 which was still too high. Then Mr. Wixom talked with other architects but returned, finally, to Mr. Kemp and wanted new plans entirely. No price was stated on the second job, but the plans were satisfactory and the house was built. Mr. Kemp superintending it, his work in that line extending through a year or more.

Then there came a falling out which ended in a law suit. Mr. Kemp insisted that there was some money due him and Mr. Wixom denied it insisting that he had paid all that was due and more too. The case was tried before Judge Bennett but today it came to a sudden end, the court suggesting that a settlement was possible. After a conference the settlement was agreed upon by Mr. Wixom paying \$150 and the case was dropped. Mr. Wixom was not in a very amiable frame of mind and declared that he could have won the case himself and that "lawyers all pulled together and then whacked up." F. C. Burpee and M. J. Jeffris appeared for Mr. Kemp and Smith & Pierce for the defendant.

All the People Not Fooled.

"You can fool some of the people all the time, and all of the people most of the time; but you can't fool all the people all the time." This is a great saying, and represents the "Monarch Tea" question to a nicety. We have the only genuine "Monarch Tea" in Janesville. It is an easy matter to get some "Monarch Tea" wrappers and put around some other tea boxes, or possibly empty boxes, set in front of the store and then advertise a big shipment of "Monarch Tea," just received. Anybody can do that, it requires no smartness, but then all people do not try to "fool the people." We guarantee our "Monarch Tea" to be the only genuine in Janesville. Handsome solid silverware given away with it.

WANTS THE SPEAKERS TO GATHER

Milwaukee Telegraph Suggests Such a Convention This Winter.

A convention of republican campaign speakers in Milwaukee or Madison the coming winter is the suggestion advanced by the Milwaukee Telegraph. They and the republican editors—both classes having done better service than ever before, might profitably meet and confer. It would make an interesting gathering, and a profitable one as well and they would end the event with a banquet. Much of the credit for the cheering republican victory in this state is due to the Wisconsin speakers who gave their time and in most instances paid their own expenses, and worked as never before. Some of them traveled thousands of miles: some of them spoke thirty times or more; some spoke only in larger cities, but all were ready to go where state and county committees desired. They went by rail, water, wagon, horseback or on foot. In this army of party workers—men who worked unselfishly, having in mind only the good of party and country, are many who have more than a state reputation.

Rock county's list as published in the Telegraph is:

W. A. Jackson, T. W. Goldin, G. H. Metcalf, E. F. Hansen, J. V. Norcross, Charles E. Pierce, J. W. Bates, Philip Koch, C. H. Kueck, W. C. Whitford, M. G. Jeffris, B. F. Dunwiddle, Ogden H. Fethers, F. W. Starr, A. E. Mathson, F. M. Marzluff, Fenner Kimball, W. G. Wheeler, E. D. McGowan, and O. D. Rowe.

Technical Talk.

The wife of the country editor, accompanied by her son, was paying the husband and father a visit at his office, and the kid wandered down into the composing room where they were making up the paper. After a time he returned quite excited.

CARMEN SYLVA'S HEART.

It Is Very Tender, as a Little Roumanian Girl Has Reason to Know.

Here is a pretty little story about Carmen Sylva: A few years ago, when she was in the zenith of her popularity and health, she visited a small village school in Rumania, and asked permission to put the children through their "paces." The children did their mistress credit, answering with great promptitude all the simple questions the queen put to them.

Just before leaving the queen noticed one little tot in a far corner of the room, with her tangled head of hair bent over some book. The child was so deeply engrossed in her reading that she took no notice whatever of anybody in the room. The queen asked the reason of her silence; was she deaf or otherwise afflicted? "Oh, no," was the answer, "but she is stupid and never attends to her studies, but seizes every opportunity to read story books." Carmen Sylva walked quietly up to the little reader, and putting her hand on the curly head, asked gently what the child was reading, and the latter held up the book to the strange lady. It was "Fairy Stories and Poems," by Carmen Sylva. "And do you like these tales?" asked their author. "Like them, madame? oh, I love them."

And Carmen Sylva took the child in her arms, kissed the little flushed face, and departed. About a week afterward the child's aunt (for the little maiden was an orphan) received a letter from the queen offering to educate and bring up the child. The offer was gratefully and thankfully accepted, and now the little one is in one of the best schools in Roumania.

Of billions of people in the reign of the liver, but with the extreme discomfort located there are assorted sour stomach, yellowness of the skin and eye-balls, morning nausea, an unpleasant breath, curdled tongue, sick headache, and irregularity of the bowels. For each and all of these unpleasantnesses, Dr. J. C. Smith's Stomach Bitters is a swift and agreeable remedy. It is greatly preferable to any violent purgative or drastic mineral cathartic. Such pseudo-specifics usually do more harm than good. In malarioid complaints the liver is always involved. For such disorder, as well as for rheumatism and kidney trouble, nervousness and debility, Hostetter's Stomach Bitters is a genuine remedy. Physicians strongly commend it for its promptness and thoroughness, and a professional approval is fully justified by public experience during more than a third of a century.

AN OUTLAW FORTRESS.

The Cliff From Which the Sizemore Band Shot Down Travelers.

On the left bank of the Holston river in Hawkins county, Tennessee, is a cliff which has some local fame. It is of solid stone, perpendicular from the base up, and is something over a hundred feet high. From the top of it the country is visible for miles and miles, affording a grand view of the hill, mountain and stream. A few feet back from the edge are still plainly to be seen the earthworks forming the rendezvous of the celebrated Sizemore and his gang of desperadoes. From the top of the cliff they commanded a full view of a much used public road, together with two fords above and below, and a great number of hapless soldiers as well as private citizens who had lucklessly incurred their anger fell victims to their unerring rifle bullets as they attempted to pass all unconscious of danger. Very near this cliff is a little cave at least a mile deep, on the sides of which are written the names of once prominent people who have long since passed away, the dates running back perhaps a hundred years. In one of the caverns is a perfect little table formed of a flat rock. During the war this cave was used by some soldiers as a place for making saltpetre the hoppers being still in a state of preservation, the earth looking as if it had been dug but recently.

HE WAS IN LUCK.

A Shot Which Was as Successful as it Was Accidental.

A Maine veteran of the Aroostook war tells a story of how good luck brought a poor marksman out of a bad scrape. Governor Fairfield visited Houlton and reviewed the troops stationed there as commander-in-chief, and, of course, it was the biggest kind of a military event. The Dexter rifle company had some crack shots in it, and as part of the exercises in honor of the governor's coming they were marched out for target practice. As they made some excellent hits, the figure of an Indian being a mark, the governor expressed his pleasure in their proficiency and said loud enough for the men to hear:

"Now, I would like to see your very best marksman try his skill."

In the company was a man noted for not being able to hit anything, and at once, in a spirit of deviltry, the cry ran along the line repeating his name in answer to the governor's call. Without finching he stepped six paces to the front and saluted:

"Where do you want me to hit him, governor?" he asked with perfect composure.

"Just at the bottom of his left ear, sir," said the chief magistrate, pointing at the mark.

"All right, sir." The soldier raised his gun, shut his eyes and turned his head away as usual and fired. The men were all on a broad grin at the great joke of the thing, but when the bullet struck the mark whistling off a piece of the Indian's left ear, there was a shout of surprise that could be heard all over the township.

HISTORIC FAT WOMEN.

Celebrities Who Were More or Less Disposed to Embonpoint.

From ancient, mediaeval and modern history the following facts about fat women are gleaned. Agrippina, Nero's mother, was fat. Cleopatra, the serpent of the Nile, as Marc Anthony called her, was small and fat. Laura, Petrarch's muse, was fat, fair, with blond hair. The Marie Fiammetta, whom Boccaccio loved intensely, was a brunette and fat, with thick red hair. Marguerite of Navarre was fat. All Rubens' women, except his wife, were fat. All Titian's women, except the madonna, were fat. Catherine of Russia was tall and fat. Louisa Strozzi, for whom Alexandre de Medici died, was rather stout. Josephine Beauharnais, the indolent Creole, afterward empress of the French, was fat and perfumed; Mme. Roland also. The unfortunate Marie Antoinette was tall of stature, majestic and fat. Mme. de Stael, small, dark and fat, with a small head. Georges Sand had a beautiful head, but was fat and small. Heine said of her: "The build of her body has the appearance of being a little too fat, or at least, a little too short; the head alone bears the cachet of the ideal." Queen Isabella of Spain is fat; Queen Victoria the same; Queen Margherita of Italy is certainly on the same way, and most of the great singers have been noted for their embonpoint.

Married Jockeys.

Horsemen always hear with evident regret the announcement of the intended marriage of their jockeys. To be sure it has a tendency to steady them, but then turfmen claim marriage covers a good boy. This seems to be the turning point in his career and no matter how courageous and daring he may have been before a great change is always noticed after his marriage. Reckless rides around turns and daring rushes through big fields are seldom attempted by married jockeys. They leave this dangerous work to the more experienced youngsters. An owner doesn't like to see his horse pocketed or cut off, and that's why he prefers to have up an unmarried jockey, who is not bothered with wifely warnings before going to the post to be careful, for her sake at least.

California Ostrich Farming.

"The ostrich farms of California are not an entire success," said C. R. Catron. "Some years ago a number of these mammoth birds were imported and it was expected that large

fortunes would be made raising them for their feathers, but the hopes have not been realized, although it cannot be termed a complete failure. A large amount in the aggregate has been realized from the sale of feathers, but the birds do not increase as rapidly as was expected, and many of them are so vicious as to render the removal of the feathers without killing the birds an impossibility. They have to be caught by lariats and it requires an expert thrower to keep from injuring them seriously."

CHARGE MRS. DUNN WITH CONTEMPT

REFUSED TO ANSWER JUDGE
BENNETT'S SUMMONS.

Was a Witness in the Morehouse Abduction Case at Monroe But Fled From the State to Avoid Telling Where She Got the Girl They Said Was Stolen.

Judge Bennett will pass upon a contempt of court case, some time within a day or two, that would make the foundation for a "good story" for the Police Gazette.

Mrs. Belle Dunn is the person charged with contempt. She is the proprietress of a certain resort in Racine which comes under the regulation of the law. Some time ago an abduction case was on trial before Judge Bennett in the circuit court at Monroe.

The defendant was a woman named Morehouse and it was alleged that she had unlawfully taken possession of a young girl named Merchant. Mrs. Dunn to whom it was claimed the girl was "sold" by somebody, for a consideration, and in whose house she was found, was summoned as a witness. She did not answer the mandate of the court and could not be found and it is said she was sequestered at some point in the state of Indiana.

Yesterday she returned to Racine and was at once locked up on the charge of contempt of court. Sheriff Peter Moore of Green county was notified and at once went to Racine and got the prisoner.

He passed through Janesville with her last night and it was expected that she would be brought before Judge Bennett this morning but they did not appear.

Mrs. Dunn said that the true reason why she did not go to Monroe was that she was sick and a physician advised her not to. She also says she did not detain the girl in question.

ANSWERED THE LAST CALL

Rosella Hessian.

Rosella Hessian, the four year old daughter of Mr. and Mrs. Martin Hessian, Jr., corner of Western avenue and Pine street, died at 4 o'clock this morning of membranous croup. The funeral will probably be held tomorrow morning.

Thanksgiving Dinner.

Those who do not care to "get up" a Thanksgiving dinner at home can be excellently served at The Park Hotel. Mrs. Galbraith has prepared a "bill of fare" for this occasion that cannot be equaled in any hotel outside Chicago. It is a very elaborate one, and it will be a great deal less expensive for you to take dinner there than get it at home, and you have no worry. The park is enjoying a reputation which would be the envy of many a hotel in a much larger city. The "commercial men" are fast finding out that they can get the best meal there and the result is twelve to fifteen are there almost every night. Take Thanksgiving dinner there and be happy.

A New Leaf.

Tomorrow we will commence to do business in our large new dry goods store on the bridge. It will be a long looked for pleasure. While we will not entirely be in shape, we will be in a condition to take care of all who call on us. By Saturday we will be in splendid condition and Saturday morning we will open a series of sales that will stir the town from one end to the other. Heretofore we have divided the profits with you. Commencing Saturday we will give you all the profits for 30 days on many articles. Watch for Friday's Gazette with large ad. names of goods and prices quoted for Saturday.

BORT, BAILEY & Co.

Match Race Trotted Today.

"Cal" Jones Rode Faster Than John Richardson and Got The Purse.

John W. Richardson and "Cal" Jones have each been thinking for some time that he could beat the other's horse ten dollars' worth and that idea crystallized into a match race for that amount. The contest took place at the Driving Park at 11 o'clock this morning and was witnessed by a large number of horsemen. The match was an easy one for Mr. Jones, he winning handily in 3:18. Neither M. E. McHenry, Ed. Geers or Monroe Salisbury could get here to act as judges as was expected, and Starter J. L. McCarthy was detained in Chicago, but the race was gotten off all right by local talent.

KUECK GIVES MEAT TO THE POOR

Ex-Alderman Says the Needy Can Call on Him For Thanksgiving.

There are few men in Janesville that have the consideration for others that C. H. Kueck exhibits.

"Tell all the poor people in town who cannot pay for meat for Thanksgiving, to come to my market and get some," he said this afternoon. "I mean people who are actually poor and needy. I have no meat to give to folks who can pay for it, or impostors, but poor people who are honest and in need I will help."

The ex-alderman's generosity is the kind that counts; and it will carry cheer into many a poverty stricken household on the day when feasting is in order.

LIVE BIRD MATCH ON THURSDAY

Thanksgiving Tournament of the Janesville Shooting Club To Be a Big Event.

Twelve matches will be shot at the Thanksgiving tournament of the Janesville shooting club. Shooting will begin at 9 o'clock, sharp, and targets and live birds will be shot at. Five blue rock traps and North's electric pull will be used. Visitors will be present from Madison, Whitewater, Stoughton, Evansville and Rockford. American Association rules will govern all matches. Refreshments will be served on the grounds, and loaded shells will be on sale. Extra matches will be arranged if time permits.

IN THE BOND OF CUPID

Flynn-Sennett.

J. Flynn and Miss Delia Sennett were married in St. Patrick's church at 7:30 this morning. Many friends witnessed the ceremony and this evening there will be a reception. The bride is the daughter of George Sennett of Second street, Monterey.

Murphy-Malone.

Dean E. M. McGinnity will perform the ceremony tonight that will make Miss Josie Malone Mrs. Frank Murphy. The ceremony will take place at the dean's house at 7:30. The groom has just gone into business for himself, being a partner in the firm of Boots & Murphy, successors to Alderman Will Cunningham, while the bride was one of the trimmers in Thoroughgood's factory.

A Slaughter Sale.

Commencing Wednesday, November 28, I will sell my entire stock of clothing, gents' furnishing goods, hats, caps, gloves, mittens, shirts, collars, cuffs, underwear, neckwear, hosiery, umbrellas, canes, jewelry, etc., at and below wholesale cost.

This stock amounts to about \$15,000, all first-class desirable goods and must be converted into cash in 30 days, as after January 1 I shall continue at the same stand in the merchant tailoring and first-class gents' furnishing business.

Cash purchasers can save at least 35 per cent. by attending this sale. Nothing in the store reserved. All goods must be sold in 30 days. Early callers will get the best bargains. Remember the place, 21 West Milwaukee street. Big 21 in door and window.

J. WEISEND.

What's Left Goes Cheap.

The stock is becoming quite small; we have moved to one side. The fact of the matter is, we have not much more to sell; but what there is, as is always the case, is the best. We will vacate this room Saturday evening as far as we are concerned, and if there is anything left that you want, come and take it; we will not quarrel about the price. The success we have had in closing out the stock makes us feel that we can sell the balance very cheap. Four days more. Lowell Hardware Co.

HITZMAAN'S CASE BEFORE THE COURT

CENTER MAN BEING TRIED BY
JUDGE PHELPS.

Center People Come in a Large Delegation to Hear the Testimony—The Defendant Did Not Plead Guilty as Was Expected and Is Defended by M. P. Richardson.

Contrary to expectations Fred Hitzman, the town of Center man who is charged with an unnatural alliance with his sixteen year old niece, did not plead guilty when his case came before Judge Phelps today. The case is an unusual one and smacks a good deal of the dark ages. Hitzman, when he was arrested justified himself by saying that he and the girl were married last May. This was not a satisfactory arrangement from any point of view, to her father, so he swore out a warrant for his brother. Center people filled the court room today to hear the trial which was before a jury composed of George Clark, Thomas Tomlin, Frank Haselton, William Kelly, S. Slawson, C. I. Sloan, Charles E. Curtis, A. E. Magee, W. H. Pierce, D. VanValen, H. S. Gilkey and J. W. Tipney. District Attorney Wheeler prosecuted and M. P. Richardson appeared for the defense. The trial will hardly be concluded today.

At four o'clock the jury returned a verdict finding Hitzman guilty, whereupon he was sentenced to two years in the penitentiary.

By Wits Outwitted.

"By Wits Outwitted" is a three-act comedy by E. O. Towne, and scored an instantaneous success. The dialogue is bright and crisp. The central idea is very humorous. A synopsis gives but a very faint idea of the humor of the comedy and the clever way it is worked out. The company is competent.—New York Dramatic News. At the Myers Grand Thanksgiving night.

A GAY SEASON.

Fashionable Millinery Shows Unique Col-
or Combinations—Mercury Effects.

Toques are as much worn as ever, and
turbans are quite in vogue again, both of
these being very suitable to girls of 16
or 17.

Most of this season's hats have a decided
upward tendency in the brim, particularly
in front, and cerise bows and knots of vel-
vet are much depended on to give a touch
of color. A felt hat, with a much curved
brim, has broad cerise satin bows of rib-
bon lined with pale pink, the ends of the
ribbon passed through long jet buckles.
The hat itself is black and has black coque

BROWN HAT.

feathers on each side of the front, with
knots of ribbon at the back beneath the
brim.

Tan, biscuit and various shades of brown
felt will be well worn, and in many cases
the hat will take the exact tone of the
gown material and be trimmed to corre-
spond with it. The effect of a complete
costume of this description is always in
good taste.

Sable tails appear on many brown felt
hats of the toque and smaller shapes, as
also on felt bonnets, and astrakhan is well
used in millinery.

Mercury wings of gold, steel and jet are
the fashionable bonnet ornaments of the
season. They come in various shapes, and
with a twist of velvet often form the en-
tire trimming when the bonnet itself con-
sists merely of a small open frame of me-
tallie embroidery or jet.

Crepe de chine, mousseline de sole and
piece satin are among the trimming ma-
terials used for winter hats. They are
made up into twists, puffs, rosettes and
accordian plaited bows.

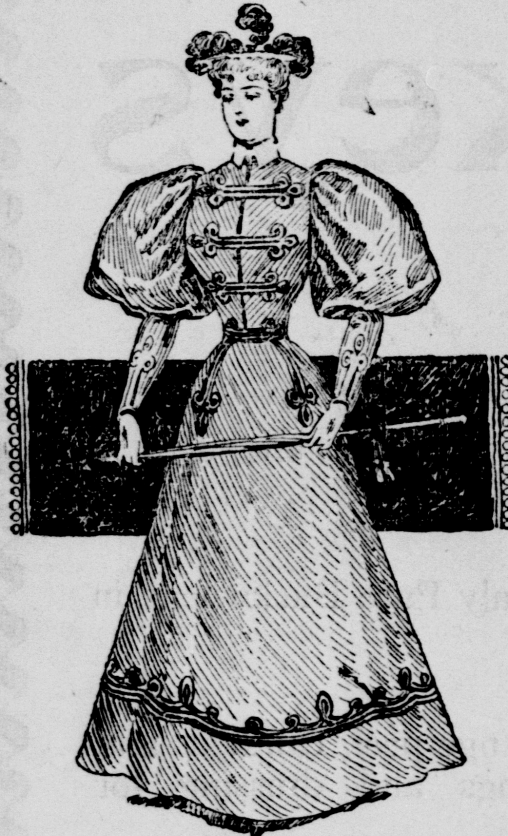

Jet or metallic effects enter into nearly
every one of this season's millinery pro-
ductions. Buckles and rings of gold, sil-
ver, steel, jet or paste are the most sub-
dued expression of the mode, while pins,
ornaments, fillets, crowns and entire bon-
net frames offer a glittering choice to
women who like strikingly brilliant head-
wear.

The fashionable hat has rosettes or
twists of bright color under the brim, or
else bunches of flowers are arranged there
and allowed to rest upon the hair. It is a
becoming style, and therefore likely to re-
main in favor for some time. An illus-
tration is given of a hat of tobacco felt,
having clusters of rose colored flowers be-
neath the brim. It is trimmed with knots
of tobacco velvet and ostrich plumes of
the same tint. JUDIC CHOLLET.

BAD OUTLOOK FOR MEN.

Will the Fair Indicator Force Them Back
to Petticoats?

It is a mistake to suppose that the fash-
ion of men's garments does not frequently
alter. It is constantly changing its phases
in the matter of details, sometimes trivial
enough, but never without its effect upon
the general appearance. When taxed with
the accusation of fickleness in dress, men
generally reply that they are driven to it
on account of women stealing their new
modes as fast as they are produced. Of

TAILOR MADE GOWN.

course no answer was really necessary to
so foolish an accusation, since it is a well
known fact that a woman is invariably at
the bottom of it.

If imitation be, as is said, the sincerest
flattery, men should feel themselves highly
complimented by women's appropriation
of masculine materials and styles. The
scarf and scarfpin, necktie, shirt, gaiters,
dogskin gloves, cap and coat all have a
recognized place in the feminine wardrobe,
while the trousers and stiff hat are not un-
known there. As soon as the trousers
movement becomes general man will have
to hark back to petticoats if he desires to
maintain his individuality.

Tailor made gowns stand as high as ever
in popular favor. They are simple in style
this season, and their trimming is confined
to stitching, braid and buttons. The skirt
is of an ample bell shape and of walking
length. Double and draped effects are
eschewed, but the skirt may be plaited, al-
though the weight is much increased
thereby. The round bodice, Eton jacket
and coat are all employed, a severe finish
being the correct thing. Sternness does
not yet reach as high as the head, however,
for flowered and feathered hats are permis-
sibly worn with the plainest gowns.

The costume shown in the sketch is of
old green cloth. The plain skirt has a
band of braiding of the same color near
the foot and is braided on either side of
the front breadth at the top. The plain
round bodice is trimmed with brande-
bourgs of the same braid, while the deep
cuffs of the puffed sleeves are similarly
adorned. A red felt hat with black plumes
completes the costume. JUDIC CHOLLET.

ELECTRICITY AS A FAD.

American and Other Notables Who Have
Taken Up With the Study.

The number of wealthy persons in
this country who study electricity as
a hobby or means of recreation is be-
coming large, and it is believed that
with the now universal practice of
including electricity as part of the
curriculum at our schools and col-
leges the ranks of such amateurs are
destined to receive many important
accessions. In Europe the young Em-
peror William is said to be among the
devotees of electricity, while the zest
with which the marquis of Salisbury
and his nephew, Arthur Balfour, go
in for electrical work is well known.
In New York city one of our very rich
young men spends much of his time
and money in the improvement
of electrical launches; and another
wealthy member of an old family in
the interior of the state has made val-
uable researches, including some on
the consumption of carbon in the pri-
mary battery, as a step toward get-
ting electricity directly from coal.
Note is now made of the diversions of
a New York banker at Schroeon lake,
where this electrical amateur has
built and maintains for himself and
his neighbors a beautiful little elec-
tric light plant, and where he op-
erates an electric launch, an electric
dingy, a search light, a laboratory and
some other trifles. In this way, not
only is steady amusement derived but
many useful hints and points are
picked up that the commercial con-
cerns are glad to avail themselves of,
and not a little interesting work of
real scientific value is also the result.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's
affection as her daughter just budding into
womanhood. Following is an instance: Our
daughter, Blanche, now 15 years of age, had
been terribly afflicted with nervousness, and
had lost the entire use of her right arm. She
was in such a condition that we had to keep
her from school and abandon her music les-
sons. In fact, we feared St. Vitus dance, and
were positive but for an invaluable remedy she
would have had that terrible affliction. We
had employed physicians, but she received no
benefit from them. The first of last August she
weighed but 75 pounds, and although she has
taken only three bottles of Nerve she now
weighs 100 pounds; her nervousness and symp-
toms of St. Vitus dance are entirely gone, she
attends school regularly, and studies with com-
fort and ease. She has recovered complete use
of her arm, her appetite is splendid, and no
money could procure for our daughter the health
Dr. Miles' Nerve has brought her.

When my brother recommended the remedy
I had no faith in patent medicines, and would
not listen to him, but as a last resort he sent us
a bottle, we began giving it to Blanche, and the
effect was almost immediate."—Mrs. R. R.
Bellock, Brighton, N. Y.

Favors the Nicaragua Canal.
WASHINGTON, Nov. 27.—Commercial and financial organizations met at the Corn and Flour exchange at Baltimore and authorized the chairman to appoint a committee of five for the purpose of conferring with kindred associations throughout the union with a view to taking concerted action in behalf of the early construction of the Nicaragua canal. Congress is to be petitioned to no longer delay extending proper governmental aid for this great enterprise.

Ricks Investigation Begun.
CLEVELAND, Ohio, Nov. 27.—The house sub-committee on judiciary, appointed to investigate the charge brought by the Central Labor Union against United States Judge Augustus J. Ricks, began its inquiry yesterday. Arnold Green, for the prosecution, said Ricks did not make a full report on the fee matter until ten years after the fees had been collected and at that late time to avoid any possible scandal.

Militia in Readiness to Move.
SELMA, Ala., Nov. 27.—The four military companies of this city have received orders from the colonel of the Third regiment to hold themselves in readiness to move to Montgomery at a moment's notice to resist an attack on the state capitol in case the Kolb faction of the populist party tries to take possession and seat Kolb as governor. All the armories in this city are under guard.

Jails in Hawaii.
The system of jail management in Hawaii is peculiar. It is the custom to rent out the prisoners to citizens as laborers at so much a day. Every one who pretends to social standing in Honolulu has a telephone in his house, and a conversation over it like this is said to be of frequent occurrence: "Is this the jail?" "Yes." "Well, won't you please send up a murderer to the house to-day? The burglar you sent up yesterday was not satisfactory." The prisoners are required to return to the jail before 6 every night.

Voices of the Nations.
The Tartars are supposed to have, as a nation, the most powerful voices in the world. The Germans possess the lowest voices of any civilized people. The voices of both Japanese and Chinese are of a very low order and feeble compass, and are probably weaker than any other nation. Taken as a whole, Europeans have stronger, clearer and better voices than the inhabitants of the other continents.

So penetrating is water at high pressure that only special qualities of cast iron will be tight against it. In the early days of the hydraulic jack it was no uncommon thing to see water issuing like fine needles through the metal, and the water needles would penetrate the unwary finger just as readily as a steel one.
